

WA BOTANIC GARDEN Favourites Trail

FLOWER TRAIL

Growing resilient home gardens for the future

Flower Trail Locations

Take the trail and discover some of our favourites in the WA Botanic Garden!

These plants are hardy, beautiful, and even better - available in local nurseries for home gardeners. If you're looking for inspiration to build a beautiful, easy-care native garden, follow the WA Botanic Garden Favourites trail to discover and learn about growing these resilient species.

This trail includes only a selection of hardy native plants - you will see many more as you explore the botanic garden! Scan the QR Code to download this trail map to your phone and learn about more spectacular species chosen by our Horticulturists.
